2026 ACCELERATOR IMPACT STORY

AgriMercarb

ABOUT AGRIMERCARB

AgriMercarb Ltd is a circular agribusiness converting segregated organic waste into insect-based protein for animal feed and organic fertiliser through nature-based bioconversion. By closing the waste–food loop, the company addresses organic waste management, affordable feed supply, and food security while creating green jobs. Through a subsidiary innovation stream, AgriMercarb is also developing bio-based water filtration materials from insect-derived chitin to improve water quality and public health outcomes.

AGRIMERCARB: 12 MONTH ACCELERATOR JOURNEY

During its 12-month Accelerator journey, AgriMercarb focused on strengthening its investment readiness to support the growth and expansion of its circular sanitation business.
