TOILET BOARD COALITION

2026 ACCELERATOR IMPACT STORY

ABOUT SANIWISE TECHNOLOGIES

Saniwise Technologies Enterprise Limited is a youth-led social enterprise based in Kisumu addressing sanitation challenges in low-income communities. It designs and manufactures the Saniwise eco-toilet—a modular dry-toilet made from 90% recycled plastic and engineered for high water table conditions. Using Black Soldier Fly larvae for on-site waste treatment, the system converts waste into organic fertiliser and high-protein animal feed, while the enterprise also provides professional pit-emptying services for households and institutions using traditional latrines.

SANIWISE TECHNOLOGIES: 12 MONTH ACCELERATOR JOURNEY

During its 12-month Accelerator journey, Saniwise Technologies focused on defining a clear pathway to scale and building strategic partnerships to support its growth.

ACCELERATOR COACH

"Saniwise turned its ambitious vision into a clear, actionable growth plan. An open and collaborative team with a strong ability to build meaningful partnerships."
