GHG emissions (CO₂ equivalent)
reduced, sequestered or avoided

3

Operational countries
Arequipa, Lima & Apurimac

**Business impact numbers from establishment to date*

YAKUFIL: 12 MONTH ACCELERATOR JOURNEY

YAKUFIL earlier experienced challenges with financial and forecasting tools. During the Accelerator, the primary focus was on equipping the team to effectively utilise existing tools, enabling them to accurately present and communicate their financial position.

"I'm grateful and very happy to have lived this experience with Steysi and the Yakufil project. Our discussions were enriching, and we worked together as a team to develop plans that will allow this project to continue growing in the market. Thank you for allowing me to contribute to such impactful initiatives."

"It has been very enriching to work with Steysi and learn about the great work they're doing with Yakufil. During our time together, we were able to set clear objectives, define the conversion funnel, and develop the right materials to support lead generation for the company's expansion plan. I'm really looking forward to seeing how they continue to evolve with this new strategy."

Steysi Pineda

ENTREPRENEUR

"The Toilet Board Coalition helped us strengthen our financial structure, increase our sales, and build valuable connections with partners and advisors committed to environmental sustainability. Thanks to the Toilet Board Coalition, we not only improved our finances and sales but also built meaningful partnerships with allies who share our mission of creating a cleaner and more sustainable world."
